

Assets Under Management Certification

Joe Gelet
Chief Executive Officer

To whom it may concern:

Strategy I is currently running on approximately \$5 Million USD in Assets Under Management, at the following brokers, as an individually managed account:

- AVA Trade (From 2013)
- ATC Brokers (From 2016)
- IC Markets (From 2017)
- Custom (From 2015)

The majority of the assets are running at AVA trade under IB/Manager account ID 695; using the master account 5064247. See evidence attached, customer account numbers have been redacted to comply with privacy laws.

To the best of my knowledge, these accounts are all real accounts using real ‘live’ money and all customer accounts are real clients.

I certify under penalty of perjury that the foregoing is true and correct¹. Executed on 12/21/2018.

This is a screenshot from Meta Trader Manager, showing our master account, confidential private client account data is blurred for compliance purposes.

Note the registration date, account number, which is the same number on the trading statement. The broker is AVA Trade. Meta Trader Manager is the "MAM" system (Multi-Account Manager) industry standard in the Forex industry for Money Managers to manage many accounts.

Customer accounts may open and close, for this reason we have used our master account for track record purposes.
